# BALS DE LÉGENDE TURQUOISE AND TOURMALINE RING BY VAN CLEEF & ARPELS

Description & Heritage

# THE SPIRIT OF VAN CLEEF & ARPELS ELEGANCE CRYSTALLIZED

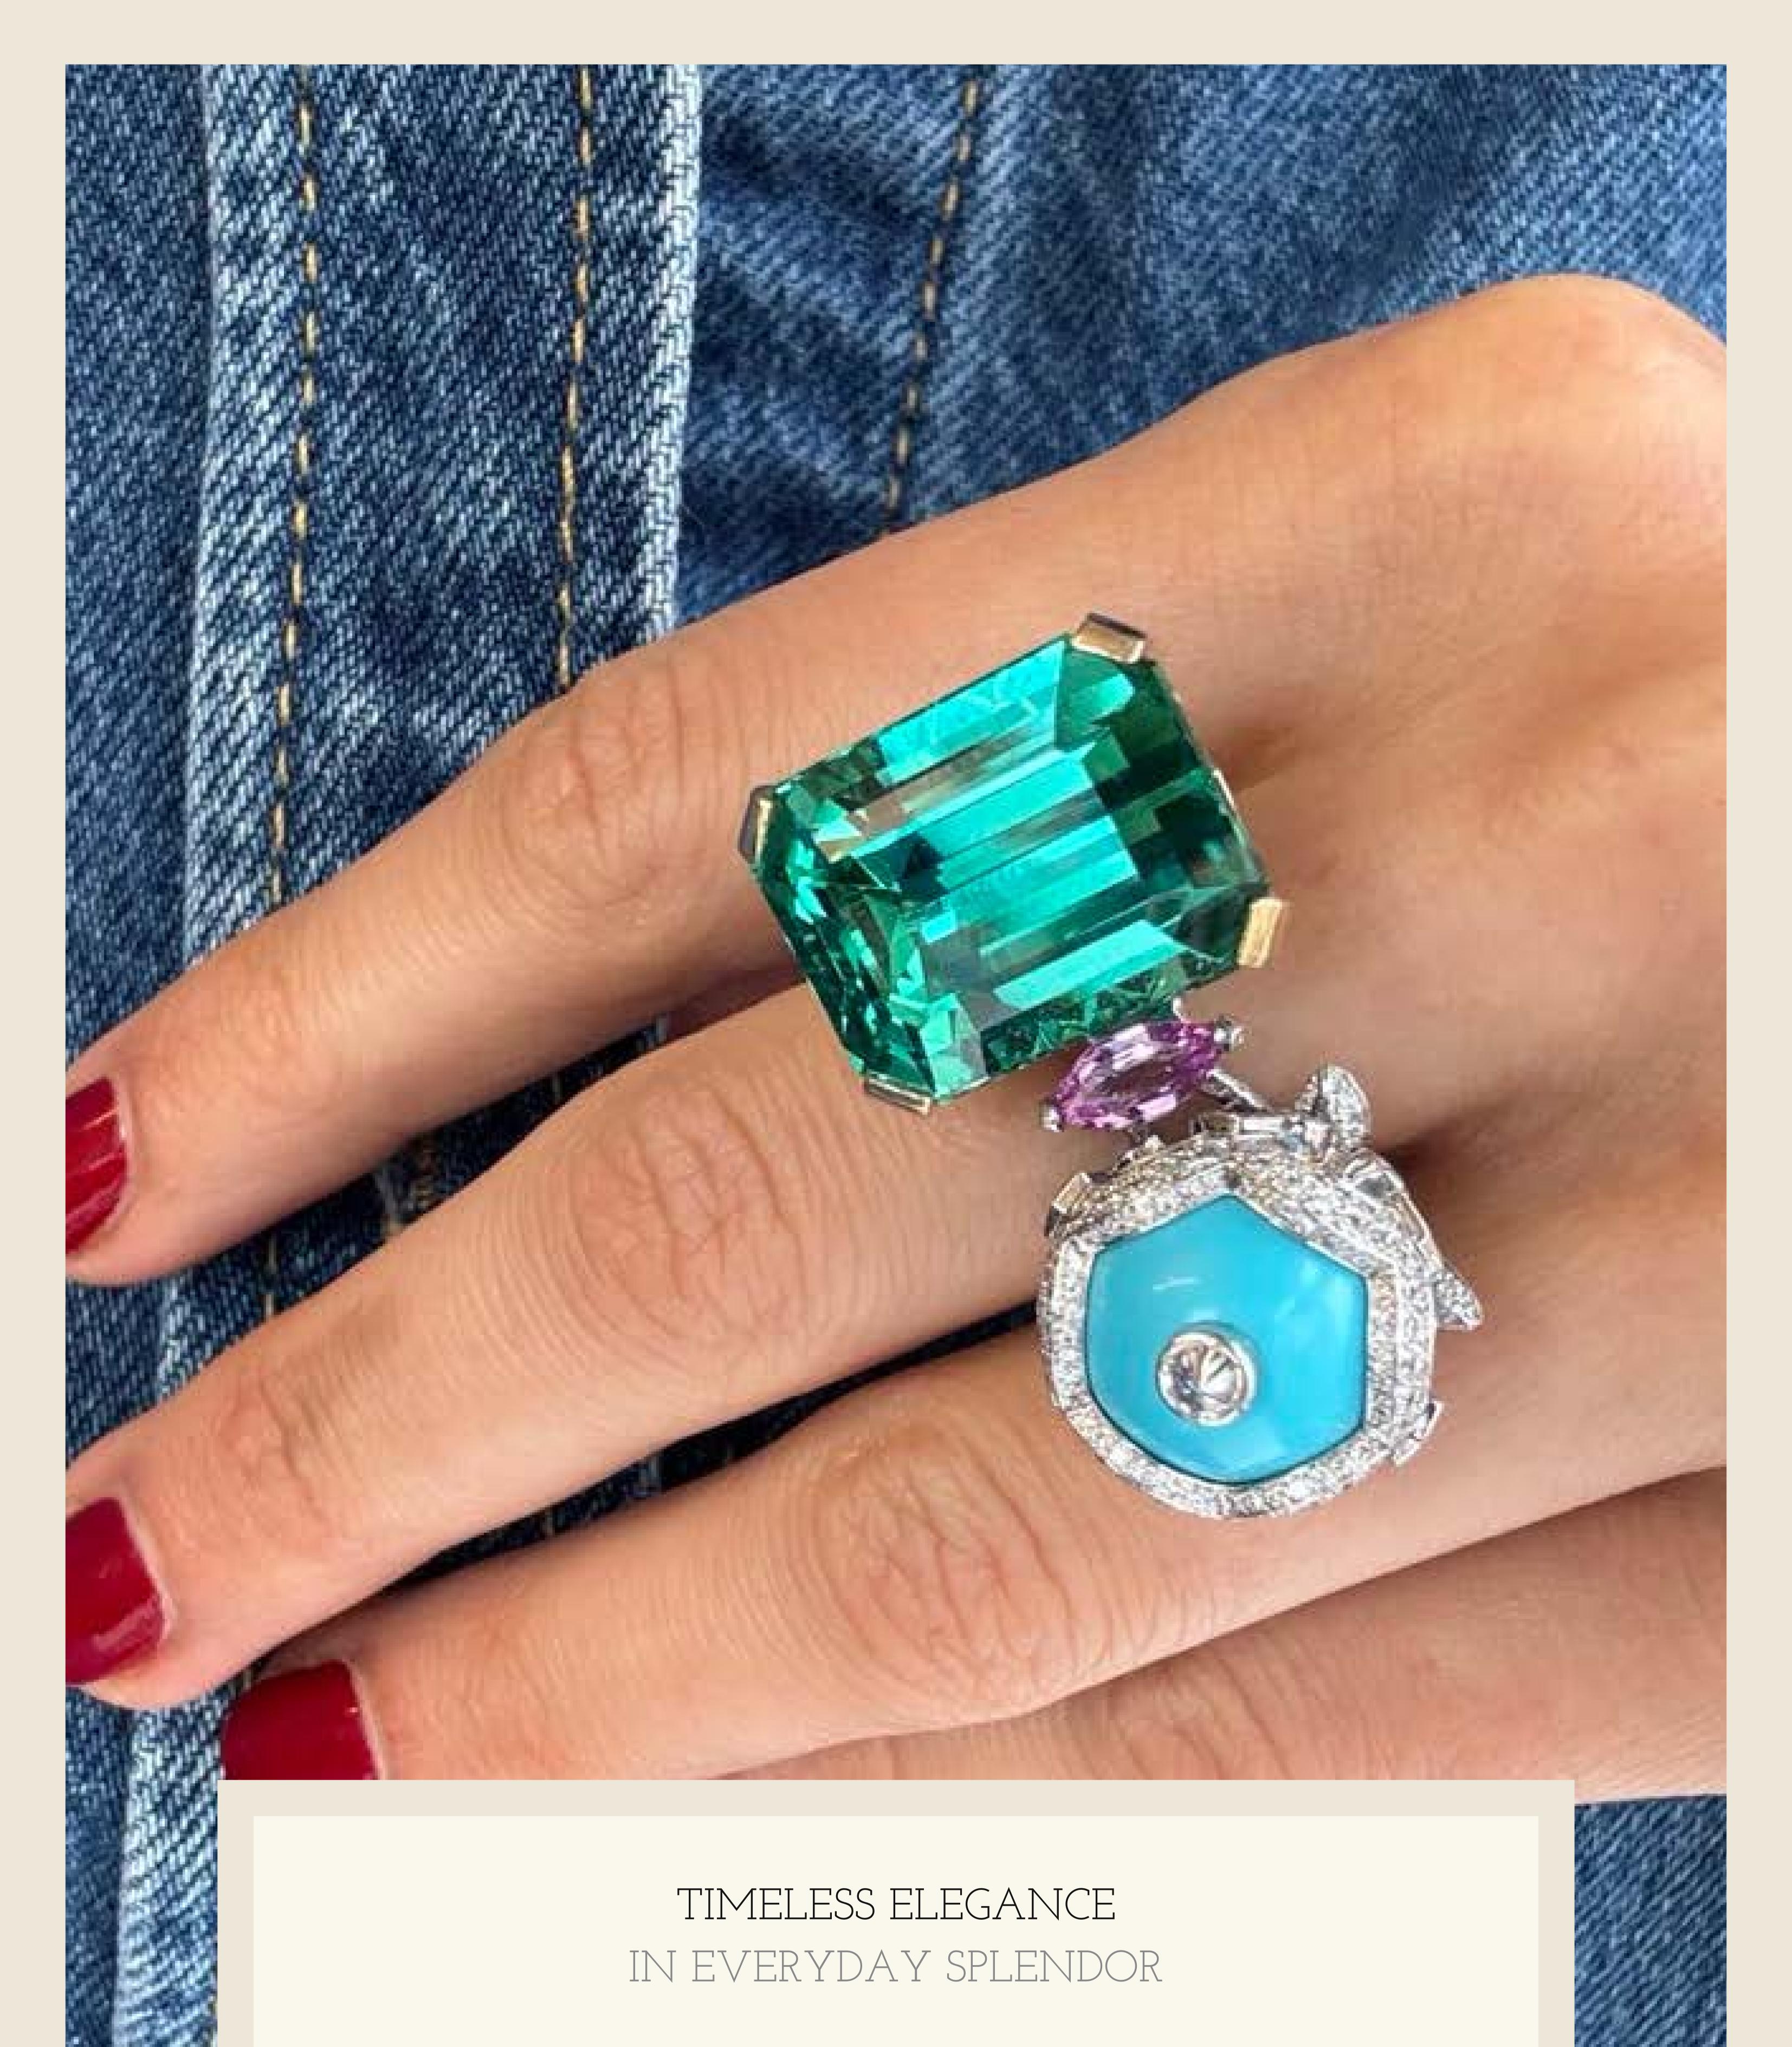

This magnificent creation from the "Bals de Légende" collection embodies the enchantment of the Bal du Palais d'Hiver.

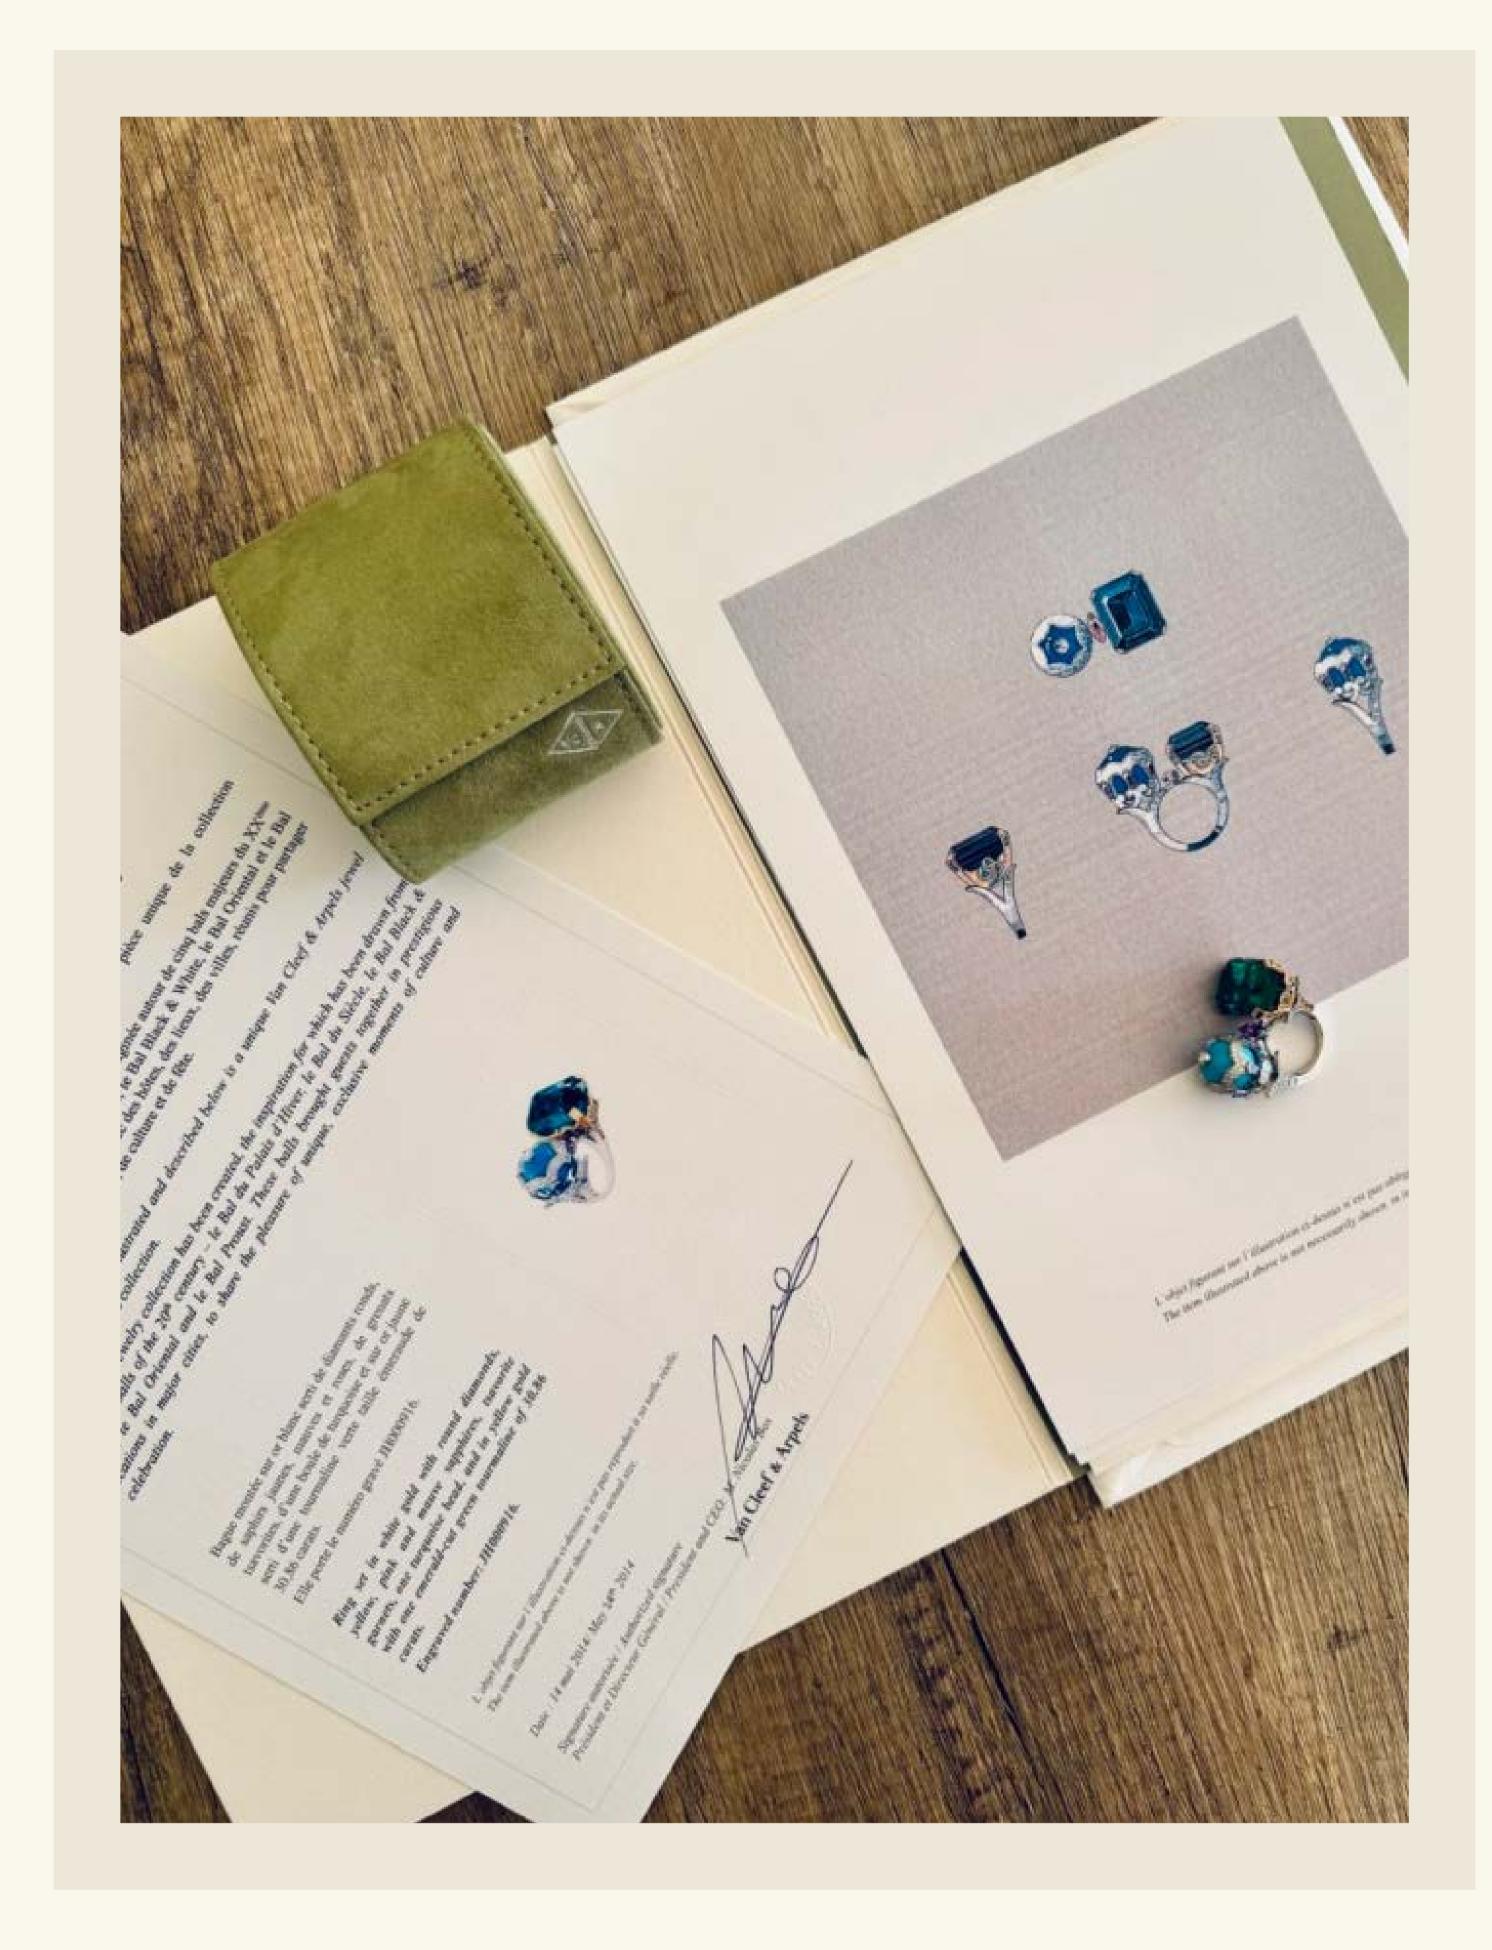

Centered around a spectacular 30.86-carat emerald-cut tourmaline, the ring (JH000916) harmonizes diamonds, multicolored sapphires, tsavorite garnets, and a luminous turquoise bead.

The ring's architecture reveals a constellation of precious elements: round diamonds providing brilliant illumination, a captivating turquoise bead evoking the clear winter sky, and a symphony of sapphires in yellow, pink, and mauve hues.

The addition of tsavorite garnets introduces another dimension of color, completing a palette that captures both the icy exterior and the warm revelry of the Winter Palace celebrations.

The extraordinary 'Bal du Palais d'Hiver' ring transitions effortlessly from gala to daily life, bringing the magic of Van Cleef & Arpels' artistry into every moment. The juxtaposition of these magnificent gemstones against contemporary attire reveals the true versatility of exceptional high jewelry—eternally relevant, perpetually enchanting.
