Document No: 1152069 Validation Date: 24 November 2025

Identification

Mineral Type: Natural Corundum Transparency: Transparent
Variety: Ruby Color Description: Red

Carat Weight: Not Determined Shape: Oval
Measurements: Approx. 7.38 x 6.26 x N/D mm Cutting Style: Mixed Cut
to 3.89 x 3.55 x N/D mm

Comments: Fourteen gemstones (an excess of 50% tested at random), set in a white metal bracelet with one large emerald cut and numerous baguette diamonds (identified at random). Tested insofar as the mounting permits.

Origin
Provenance: Burma (Myanmar)

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Burma (Myanmar).

Enhancement

Standard: No gemological evidence of heat Additional: None

Comments: Non-heated rubies are scarce. Rubies are commonly heated to modify their color and appearance.

American Gemological Laboratories™
America's first and most highly respected origin lab.

Founded in 1977,
AGL is an internationally recognized gemstone
testing facility, specializing in comprehensive
colored stone analyses.

AGL has the distinction of being the
first laboratory in the United States to issue
Country-of-Origin reports. Our company and its
principals have a long tradition of research into the
detection of and reporting on gem identification-
and-classification, gemstone treatments and
provenance determinations.

Our staff is composed of experts in the field
of gemstone testing and reporting. Our findings
reflect the latest knowledge and analytical
techniques to ensure the highest standards
are applied on every stone we test.

AGL's testing and reporting
methodology provide you with unsurpassed quality
and reliability. We are committed to providing
the highest level of service and reporting
that our clients and the industry have
come to expect from the AGL.
